**Wrocław** the meeting place

The Tumska Barge is moored nearby The Tumski Hotel pier in Wrocław, surrounded by the picturesque scenery of Ostrów Tumski. Its main advantages are: an elegant restaurant, comfortable club and conference lodgings and a view terrace. There is also (an only one in the city) a theatre scene on the river.

There are three stories on the barge available for our guests. On the top there is located a summer café with view terrace which can hold easily even 100 people. The last two stories are open during whole year. The central part of the barge is occupied by the Blue Marine Restaurant and the Officer's Mess, where we can organize professional conferences and meetings. The restaurant specializes in traditional polish cuisine and sea-food – the meals adequate for both - family dinner and business meeting, as well as a light supper. On the lowest deck there is a stylish Tavern Pub and the club lodging – the Officer's Mess.

**New space for artists**  
The unique localization and sophisticated offer make the Tumska Barge an excellent sphere for artistic activities and initiatives. The spectacles of the Wrocław Puppetry has settled on our deck for good. Every last Sunday of the month there is played a spectacle entitled "The Haunted Mill" – the drama written especially for the Tumski Hotel. On Thursdays the Tavern Pub hosts musicians from Wrocław jazz scene on the concerts and jam sessions.

**A stop on the downtown Wrocław Waterways Intersection route**  
The architecture of the Barge provides a comfortable entrance into the upper deck form both - the hotel side, on 1.5 meters wide traps and directly from the river. This latter solution was constructed for our guests travelling along the water route on the Oder by a water tram, yacht or a motor boat. One can sail to the Barge, moor, have a good meal and sail on, or, waiting for a water taxi – relax on the terrace with a cup of coffee or drink.
